5	 Health Sector Update 10:45am John and Adrienne met with Debbie to look through hospital data available in real time. Changes are still quite unsettling. Also with changes of government. Senior leads are continuing to meet locally. Occupancy at an ok level. Surgery wait list has been reduced so that no one will be waiting more than 1 year. We are doing better than others. Issues have arisen regarding eye treatments in the Bay of Plenty. Midland region working to create equity. Industrial action continuing, physio's at the moment. Hospital Visit – looked through list of where everyone wanted to go. This will now need to happen after Christmas. Pritika has taken on consumer engagement role, starting in December. By the end of the year/beginning of 2024 there may be more information re: the future of Health Consumer Councils. Florence forwarded a link to an article about a new service that has opened up at Huria Marae. Lisa phoned Pathlab but could not get further information. Hayley received a leaflet in the mail regarding this service. She will scan it in and send it around. No word about Otumoetai opening. 	Debbie	2024 Hayley
